

# Memo

**To:** File  
**From:** Bettie L. Nelson  
**CC:** Roger Walk  
**Date:** 02/09/01  
**Re:** Kozlowski Sub-Protocol

---

Activities with regards to the Kozlowski sub-protocol.

- January 30, 2001 - A message was left with Dr. Kozlowski's secretary for him to call me. I identified myself as an employee of Philip Morris and the nature of my call (to follow-up on his expressed interest in collecting cigarette butts from the Total Exposure Pilot Study for pattern recognition analysis).
- January 30, 2001 - Began compiling articles written by or contributed to by Dr. Kozlowski pertaining to pattern recognition or vent blocking. (see attached)
- February 6, 2001 - Called and spoke with Dr. Kozlowski. He informed me that at this time he did not have a graduate student available to conduct the analyses. He indicated that he had already sent the protocol for us to use if we so desired.
- February 7, 2001 - The decision was made to not move forward on developing the sub-protocol since previously the importance of having the technique carried out by someone with experience was stressed.
